Architect Colony, Lahore, Pakistan

## Skills

**Programming Languages:** C # | JavaScript
**Frontend Web Dev:** Html | CSS | Tailwind CSS | JavaScript | Rest Api | Framer Motion | React | Context Api | Redux toolkit
**React:** Hooks | Redux toolkit | Context Api | Router DOM | Framer Motion | React Form Hook
**Back End Web-Dev:** Learning Node JS | Express JS | MongoDB | Rest APIs

## Professional Summary

Front-end developer specializing in modern, responsive UI with React JS, JavaScript, and Tailwind CSS. Skilled in state management, reusable components, and adaptable layouts. Committed to performance optimization, clean code, and continuous learning through hands-on projects and certifications.

## Work Experience

**Techons  Lahore, Pakistan**                                                                 Nov 2024 - Feb 2025
*React Js Intern*

- Contributed to developing responsive web applications using React.js, focusing on improving user interface and experience across devices.
- Assisted in integrating RESTful APIs using Axios and Fetch, streamlining data flow between front-end components and back-end services.
- Applied React state management techniques (such as useState and useEffect) and basic performance optimization strategies, improving UI responsiveness and reducing unnecessary re-renders.
- React JS, Redux Toolkit, Hooks, Context Api

**CodeLab IT Solutions  Bahawalpur, Pakistan**                                                 Jan 2021 - Aug 2021
*Junior Frontend Developer*

- Developed responsive user interfaces using HTML, CSS, and JavaScript.
- Collaborated with team members to integrate APIs and manage application state effectively.
- Optimized web performance and accessibility across various browsers and devices.
- HTML, CSS, JavaScript, Tailwind CSS

## Project Work

- **Personal Portfolio: (React JS, Tailwind CSS, Framer Motion, Context API)** Dark look mode added through modern front-end methods, smooth effects, and shared data layers across app components.
- **Random Password Generator: (React JS, JavaScript, Tailwind CSS)** A mobile-ready web tool that generates random passcodes. Users can adjust rules to add numerals or extra marks, based on personal needs.
- **Task Tracker Todo App: (React JS, JavaScript, Tailwind CSS)** A mobile-ready task manager where one can add, change, remove, or check off tasks. State updates occur on the fly, paired with a smooth layout for better daily planning.

## Education

**The Islamia University Of Bahawalpur**                                                       Oct 2020 - Jun 2024
BS Software Engineering                                                                        *CGPA: 3.34/4.00*
Relevant Coursework: Object Oriented Programming, Databases, Data Structures and Algorithms, Operating Systems, Computer Networks, Web Development, C #

## Certifications

- **Practical ReactJS Essentials in Urdu/Hindi (Udemy):** Completed a hands-on course on Practical React JS Essentials (Urdu/Hindi), covering component-based architecture, state management, props, hooks, and building dynamic user interfaces using React.
